Any differing, general or specific conditions put forward by the Client, regardless of when they may have been brought to the University Language Centre's attention, cannot take precedence over these terms and conditions unless they have been accepted in writing.

### **Article I: The Public and Conditions of Access**

#### **Article I.1 Candidate Category**

All certification sessions organised by the University Language Learning Centre are open to the public, except for the TOEIC Listening and Reading assessment which is available exclusively to students who are registered on diploma courses delivered by the Nantes Université, either full-time or on a professional training basis, and to students from one of the Nantes Université 's partner institutions.

#### **Article I.2 Locations of examinations**

Exams can be organised on all Nantes Université campuses, including those of St Nazaire and La Roche Sur Yon.

#### **Article I.3 Candidate's Responsibilities**

The candidate agrees to abide by the Nantes Université's internal regulations when present on University premises.

The candidate confirms that they have read the assessment handbook and that, on the day of the test, they are in possession of valid proof of identity. They confirm that they meet the age, nationality and language conditions required to sit the assessment for which they have registered and have met the registration deadlines between each examination session.

It is the responsibility of the candidate to be present at the time and on the date of the exam session, for the duration of the test, and to ensure that all personal details provided at the time of registration are correct (family name, first name, date of birth, nationality, email address, postal address). If any personal details need changing or correcting, it is the responsibility of the candidate to inform the University Language Learning Centre before, or at the very latest, on the day of the assessment.

Any changes to personal information requested after an assessment or after certificates or diplomas have been

issued, and requests for replacement or duplicate certificates are subject to additional charges which will be borne by the candidate.

#### **Article I.4 University Responsibilities**

The Nantes Université agrees to receive the candidate on the day of the assessment within the time slot indicated on the letter of notification and to conduct the session under appropriate exam conditions. The end of the session will only be considered to have been officially delayed one hour after the end of the attendance time specified on the letter of notification. The University Language Learning Centre accepts no responsibility in the event of theft.

Disputes or complaints regarding how the assessment was conducted cannot be accepted after results have been published. The candidate must inform the administrators or invigilators running the session of their concerns and observations at the end of the session. In such cases, the invigilator will complete a report or complaint form. This will be sent to the University Language Learning Centre, which will consider the candidate's comments.

The University agrees to accommodate candidates entitled to special examination arrangements in line with the relevant procedures for each exam, provided that a detailed request (supported by medical certificates) is made within the specified timescale. This may vary from between one and three months depending on the type of arrangement needed and the partner certification body's deadlines.

The Nantes Université reserves the right to change the assessment date or venue in the event of force majeure. In this situation, the University Language Learning Centre will inform and reconvene candidates within reasonable timescales.

If a session has to be cancelled due to exceptional circumstances or insufficient candidate numbers, the University Language Learning Centre will suggest an alternative date or reimburse the assessment fees.

#### **Article I.5 Fees**

The Nantes Université is free to set prices and registration fees for organising assessments for internal and external candidates. Prices are set per test and per person and are valid on an individual basis.

Each candidate category will be subject to different pricing terms, approved by the Board of the Nantes Université. Prices include VAT. Candidates should refer to the registration fees for each assessment. Any external establishment or entity wishing to register candidates on a block booking basis should contact the administration department at the University Language Learning Centre to set up a service agreement and arrange invoicing.

Under its internal policy, the Nantes Université will partially assume the assessment costs of any full-time higher education student who voluntarily applies to sit a test for the first time as part of their studies (Licence (Bachelor), Master, Doctorate) at the Nantes Université.

Students will receive funding support for the first assessment session they sit. This support only applies to assessments offered by the University and is available for one assessment per qualification only: once at Licence level, once at Master level, once at Doctorate level, and once during the Engineer cycle. Any additional registrations will be counted as a second sitting.

In the case of assessments, students are required to sit by their department or course, the first sitting will be free of charge, with the department taking responsibility for the costs. Any requirements for certification are stated in the course/diploma syllabus. If in doubt, students should contact their course leader.

Students are responsible for paying the costs of any additional assessment sessions they sit as part of the same course, unless the relevant department decides to pay the corresponding fees.
